THE TASK OF  
PRESERVING OUR COLD  
WATER FISHERIES LIES  
WITH OUR YOUTH

Trout Waters Youth  
Camp  
July 9-14  
for Girls & Boys

The New York State Council is proud to host the 2017 Trout Waters Youth Camp at Scott's Family Resort on Oquaga Lake, Deposit, NY. This is near the West Branch of the Delaware River at Hale Eddy, NY. The camp will start Sunday, July 9th and conclude Friday, July 14th.

## The Delaware River

The Delaware River system is composed of the East Branch, West Branch, and Main Stem of the Delaware River. The entire system is influenced by cold water releases from two large New York City reservoirs, the Pepacton and Canonsville dams. These dams produce one of the top tailwater trout fisheries East of the Rockies. The cold water produces heavy hatches and with the presence of trophy trout the river attracts fisherman from all over the country. The fishing is never easy here, but anglers have the opportunity to catch wild fish that are famous for their strength and fighting ability.

Students will get to fish various areas in the Delaware system and hone their fly fishing skills on some of the most selective trout found anywhere. It is often said that if you can catch fish in the Delaware you can catch fish anywhere.

## Fly Fishing a Lifetime Sport for a Lifetime of Fun.

Experienced angler or novice, the camp will lure you into the world of fly fishing for trout. This will establish a base you can build on for years to come. Fly fishing is a sport where learning never ceases. Every time you cast a fly to a rising fish or drift a nymph through a riffle, whether you successfully entice a fish or not, your learning.

## TROUT WATERS APPLICATION PROCEDURES

Name: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_

State: \_\_\_\_\_ Zip Code: \_\_\_\_\_

Telephone: \_\_\_\_\_

Email: \_\_\_\_\_
